DETAILED ACTION

1. Claims 1-22 are pending in the instant application

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-22 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the claim is rejected because one skilled in the art is unable to determine what portion of the N1 symbols has a narrower spectrum than any other portion of the remaining N symbols. For instance, according to the claims as presently provided, one is unable to determine if only the spectrum of the first symbol of the N1 symbols transmitted is to be more narrow than the aggregate spectrum of any remaining N symbols transmitted. As another example, one is unable to determine if the claims intend to provide that the aggregate spectrum of the N1 symbols transmitted is narrower than the aggregate spectrum of the N symbols.

Claims 2-10 are rejected as being based upon a rejected parent claim.

Regarding claim 11, the claim is rejected for the same reasons as claim 1.

Claims 12-22 are rejected as being based upon a rejected parent claim.
